

 <p>The diagram shows a rectangular area representing a business card. It is divided into two main sections: a top section for the front of the card and a bottom section for the back. The top section is further divided into a left side for the front cover and a right side for the back cover. A blue line indicates the 'safe text line' and a green line indicates the 'bleed' area. A label 'cut line' points to the right edge of the top section.</p>		
<p>This business card setup is for cards with a color or designed background and require a bleed. Normally bleeds are a .125 extension of the image, but this template has less of a bleed between the cards in a column.</p>
